a single night extra	10.–

Please pay the participation costs either cash or with EC Card at the reception when arriving at the academy.
Cancelled parts of participation cannot be reimbursed.

Reduction
We grant a 50 % reduction of the participation costs for students on presentation of their relevant card. Accredited journalists do not pay the participation fee after having presented a copy of a valid press card.

The Schloss Tutzing Foundation
It is the aim of the foundation to take care of the castle and its park, which are classified as historical monuments.

Co-organizer

How to find us:
Tutzing is located some 40 km south of Munich at the Lake of Starnberg.

Arrival by train: Please, take S 6 (“S-Bahn”/regional rapid transit system) from Munich Central Station (lower level) to Tutzing (terminal station), leaving every 20 or 40 minutes. There are also trains from Munich Central Station or Munich-Pasing to Tutzing. The way from the station to the academy is a walk of ten minutes down to the lakeside. More to find: www.bahn.de

Arrival by car: If you come from Munich take the motorway A 95 (“Autobahn”) to Garmisch leaving it at the exit to Starnberg, then follow signs on the road (“Bundesstrasse 2”) to Traubing, then turn to Tutzing. Go to the centre of Tutzing there is a sign to turn to the left.

Arrival by plane: Please, take S1 from Munich airport to München-Laim and change into S6 to Tutzing.

Soils, Food Security and Sustainable Land Management

International Year of Soils 2015

February 11-13, 2015 / Conference venue: Tutzing (D)

In Cooperation with Biovision – Foundation for Ecological Development, Zurich (CH) | German Federal Environment Agency (UBA), Dessau-Roßlau (D) | Global Soil Forum – Institute for Advanced Sustainability Studies, Potsdam (D) | Millenium Institute, Washington DC (USA)

SOILS, FOOD SECURITY, AND SUSTAINABLE LAND MANAGEMENT FOR SUSTAINABLE DEVELOPMENT POST-2015

Soils are key to sustaining life on Earth. Erosion and sealing threaten this essential resource, which is non-renewable in human time-scales. Soils are local and at the very same time sustainable land management is one of the major global issues for sustainable development in general and food security specifically.

The Tutzing conference is a further step in the process the Global Soil Forum is stimulating to enhance progress in the transition from unsustainable soils and land management into sustainable use.

The UN Open Working Group of the General Assembly on Sustainable Development Goals has issued its proposal for Sustainable Development Goals (SDGs). This proposal will be the main basis for integrating the sustainable development goals into the post-2015 development agenda that will be adopted in September 2015. Goal 15 is directly related to protect, restore and promote the sustainable use of terrestrial ecosystems and to halt and reverse land degradation. Goal 2 calls for the achievement of food security and promotion of sustainable agriculture. Goal 17 focuses on strengthening means of implementation and revitalizing global partnership for sustainable development.

The Tutzing conference will focus on the possible means of implementation for the SDGs, including the enabling environment, related to soils and sustainable land management at all levels of governance. Monitoring, accountability, and reporting of the sustainable use of soils and land management will be addressed. In addition, a set of actions (road map) to enhance and facilitate implementation (at different levels) will be developed. Experiences in soil protection measures and land rehabilitation as well as good governance in this field and the role of civil society will be discussed.

All interested stakeholders in soils, food security and sustainable land management are invited to come to Tutzing at the Lake of Starnberg, Germany to debate those issues and next steps. Representatives from all levels of government, NGOs, agriculture and other sector of economy, politics and international bodies, scientists, private sector representatives as well as people active in raising soil awareness, take your chance to network and disseminate experiences. We welcome you in Tutzing, at the Lake of Starnberg, Germany.

Steering-Committee
Michael Brander, Changing Course in Global Agriculture of Biovision – Foundation for Ecological Development, Zurich and the Millennium Institute, Washington DC / **Dr. Knut Ehlers**, German Federal Environment Agency (UBA), Dessau-Roßlau / **Dr. Martin Held**, Economics and Sustainable Development, Protestant Academy Tutzing / **Dr. Jes Weigelt**, Coordinator Global Soil Forum, Institute for Advanced Sustainability Studies – IASS Potsdam

Programme: February 11 2015

WEDNESDAY, FEBRUARY 11, 2015

11.30 a.m.	Arrival at the Academy – Beginning of Check-in
1.00 p.m.	Lunch
2.00 p.m.	Welcome and Introduction Dr. Martin Held
	Fertile Soils and Sustainable Land Management – Basic to Sustainable Development Goals Keynote address and discussion Alexander Müller
3.30 p.m.	Coffee break
4.00 p.m.	Soils and Land in the Current Discussions on the Post-2015 Development Agenda Representatives from Biovision, Millenium Institute, Institute for Advanced Sustainability Studies, German Federal Environment Agency
5.00 p.m.	Discussion with Check-Ins
6.00 p.m.	Dinner

Evening Session – Open to the Public

7.30 p.m.	Food Security, Sustainable Land Management and Agriculture – Transformative Steps to Achieve Sustainable Development Goals Dr. Hans R. Herren
	Soil and Land Atlas Dr. Jes Weigelt
Later on	Reception and informal talks in Tutzing Castle

THURSDAY, FEBRUARY 12, 2015

7.45 a.m.	Earthlings You Are, Taken from the Ground (Genesis 2,7) Morning prayer in the chapel – an invitation
9.00 a.m.	Framework for Monitoring and Review The Role of the High-level Political Forum on Sustainable Development (HLPF) in Relation to SDGs and the post-2015 development agenda relevant to soil and land
	Country Perspectives Dr. Knut Ehlers

The Role of Civil Society
Christoph Bals

Committee on World Food Security (CFS)
Robert Sabiiti

10.30 a.m.	Coffee break
11.00 a.m.	Parallel Working Groups on Framework for Monitoring and Review Parallel working groups discussing proposals for monitoring and review of land and soil related SDGs Debora Bossio / Dr. Knut Ehlers / Ivonne Lobos
1.00 p.m.	Lunch
2.30 p.m.	Refreshments
3.00 p.m.	Means of Implementation: A Focus on Partnerships Input and facilitation Christine von Weizsäcker

(1) Science – CSO Cooperation
Sustainable agricultural production to enhance soil fertility, nutritious food and support adaptation to climate change in Kenya
Prof. Zeyaur R. Kahn

(2) Bilateral Development Cooperation
Soil restoration in Sub-Sahara Africa to benefit food security and reduce poverty
Dr. Christina Seeberg-Elverfeldt

(3) Regional and Local Networks
European Land and Soil Alliance
DI Christian Steiner

Discussion

6.30 p.m.	Dinner
Later on	Informal talks at Tutzing Castle

FRIDAY, FEBRUARY 13, 2015

7.45 a.m. **We are Living from the Fruits of the Earth**
Morning prayer in the chapel – an invitation

9.00 a.m.	Recap of Parallel Working Groups on Framework for Monitoring and Review Presentation of reworked input papers
10.00 a.m.	Coffee break
10.30 a.m.	Achieving the Post-2015 Development Agenda Related to Soil and Land Panel with Dr. Luca Montanarella and others Opening panel to the plenary
12.15 a.m.	Concluding Remarks and Farewell
12.30 a.m.	Lunch – End of Conference

Speakers & Steering Committee

Christoph Bals, Director of Policital Affairs, German Watch, Bonn (D)
Debora Bossio, Center for Intern. Tropical Agriculture, Nairobi (KE)
Michael Brander, Biovision – Foundation for Ecological Development, Zurich (CH) and the Millenium Institute, Washington DC (USA)
Dr. Knut Ehlers, German Federal Environmental Agency (UBA), Dessau-Rosslau (D)
Dr. Martin Held, Protestant Academy Tutzing (D)
Dr. Hans R. Herren, President Biovision Foundation and the Millennium Institute, Laureate of the Right Livelihood Award 2013 (“Alternative Nobel Prize”), Washington DC (USA) and Zurich (CH)
Prof. Zeyaur R. Kahn, Principal Scientist, ICIPE, Kenia (KE)
Ivonne Lobos, IASS Potsdam (D)
